

Thank you for *Your* participation in our health screening event!

Dear Valued Client,

Thank you for making us a part of your preventive health plan. We are confident that our services can provide you with peace of mind and the tools to take control of your health.

HealthFair is trusted by Hospitals Nationwide. Through partnerships with more than 40 major hospital systems throughout the nation, HealthFair is able to create an unparalleled level of service in the communities we serve.

Our mission is to provide the public easy access to affordable, lifesaving tests to help discover undetected health problems and facilitate early intervention and follow up care with their doctors and area hospitals.

One of our HealthFair board certified physicians has reviewed the enclosed test results and created this report especially for you. Please share this information with your doctor, so that he/she can add it to your current records to create a more accurate assessment of your overall health, especially if any of your tests showed abnormal results.

Please be aware that an abnormal result does not necessarily mean that you have a serious or life-threatening condition. Furthermore, normal test results do not guarantee that you are free from significant health problems especially if you have on-going risk factors or symptoms.

Due to the progressive nature of most diseases, abnormal health conditions can develop or intensify in a short period of time. Therefore, we recommend annual screenings as a part of your proactive health plan. We also let you know when you are due for your next preventive health screening. Please visit www.healthfair.com or follow us on Facebook or Twitter to stay up to date on the latest health news.

Dr. Geoffrey Toonder
Medical Director

About HealthFair:

Founded in 1998 HealthFair is the national leader in preventive mobile health screenings. HealthFair is accredited by the Joint Commission which accredits premier healthcare organizations nationwide. It is recognized as a symbol of quality and reflects an organization's commitment to meeting certain performance criteria. HealthFair is proud to be the only mobile health screening company of it's kind to be accredited by the Joint Commission.
